Kelly and Bill,

Per our conversation, here is the update and Greenaction Press release.
I'll forward separately to Debbie Jordan, as Alexis is recused from our Hunters Point work.

John Lyons
Acting Deputy Director
Superfund Division, Region 9

Subject: Greenaction & Dine Care raised Tetra Tech concerns to Navajo tribal council & press conference

I wanted to let you know:

On January 31, 201 community members attended a Navy Community Open House at the Hunters Point Naval Shipyard about falsification of radiological data by Tetra Tech EC, Inc. Greenaction hosted a press conference immediately before the Open House. They also protested EPA's award of an \$85 million contract to Tetra Tech, Inc., the parent company, for radiological testing at Navajo Nation Abandoned Uranium Mines. Greenaction also raised that the Acting EPA Regional Administrator's spouse works for Tetra Tech and objected to the Acting DRA's statement in the EPA press release that Tetra Tech, Inc., has "strong technical and scientific capabilities." The organization said that Dine Care had raised this concern at a Tribal Council meeting in Navajo Nation. Attached are some writeups that Greenaction distributed to the press and members of the public that address the NAUM concern.

As further background, the Navy reported that after finding significant signs of falsification through data evaluation, it concluded that all Tetra Tech EC, Inc., data is unreliable, and all locations need to be resampled. The development will be delayed significantly. This announcement received significant press coverage. However, so far I have only seen one article mention the Navajo concern: <http://www.businessinsider.com/san-francisco-shipyard-new-evidence-of-botched-cleanup-2018-1>

These EPA managers and staff attended the Jan. 31 event: Angeles Herrera, John Chesnutt, David Yogi, Lily Lee, Jackie Lane, Rusty Harris-Bishop, and Michele Huitric. (Lily Lee, 415-947-4187, and Jackie Lane, 415-972-3236)
